

## PCY-180 1x16 TY 16-505.523-78

### Copper installation round wires

Designed for connection to outputs of electric ovens heaters and tubular electric heating elements, for electric machines outputs, for control equipment installation

### TECHNICAL SPECIFICATIONS

|                                                      |                 |            |
|------------------------------------------------------|-----------------|------------|
| Rated voltage                                        | kV              | 0.38       |
| Number and rated area of conductors                  | mm <sup>2</sup> | 1 x 16     |
| Heat-resistance class                                |                 | H (180 °C) |
| Minimum permissible environment temperature          | °C              | -60        |
| Rated outer diameter of the cable (for reference) ** | mm              | 6.38       |

Notes:

\*\* The external diameter may differ from the rated up to  $\pm 10\%$

### CONSTRUCTION

1. Copper conductor
2. Varnished glass cloth tape insulation
3. Glass-tape winding
4. Glass-thread winding with silicone enamel pasting and impregnation
