## ПМЛ 16х24 ТУ У 25.9-00214534-102:2017

## Tinned copper braided screen

Designed for shielding cable products, including those used in the manufacture of products for nuclear power plants

Available in climatic versions Y and T, placement category 3 according to FOCT 15150

Made of round soft tinned copper wire corresponding to the MML brand according to TY 6-505.850-75, with an electrolytic tin coating AH «O»  $\Gamma$ OCT 9.306-85

Supplied on a plastic profile corresponding to the maximum diameter of the shielded product

## **TECHNICAL SPECIFICATIONS**

Minimum diameter of the shielded product	mm	16
Maximum diameter of the shielded product	mm	24
Wire nominal diameter	mm	0.3
Weaving density, not less than	%	75
Rated factory weight	kg/km	125

## CONSTRUCTION

1. Technological plastic profile

2. Tinned copper shielding braid
